EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

2. Authorization for this examiner's amendment was given in a telephone interview with Douglas J. Christensen on May 26, 2005.

The application has been amended as follows:

The phrase "the connecting module" (claim 17, lines 1-2) has been changed to --the connection member--.

REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art fails to teach a combination of all the limitations as claimed in the independent claim 1, wherein the claimed invention comprising projection optics, a connecting device and glasses for correcting an eye deficiency of the user, said glasses lacking temples and said glasses being releasably connectable with said frame by said connecting device, said glasses being arranged following said projection optics when the glasses are connected with the frame, as claimed. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claims 1,12,16. Therefore claims 1-19 could be allowable over the prior art of record.
